

Name: _____

Date: _____

GED Math Vocabulary- Fractions

ACROSS

2. Fractions that have the same value
4. When you multiply the numerator of one fraction by the denominator of the other
6. Finding an equal fraction with a smaller numerator and denominator
7. A comparison of ratios
8. inverse
9. Fractions that have the same denominators

DOWN

1. The bottom number (part) of a fraction
3. The top number (part) of a fraction
5. The price (rate) per item

like fractions
numerator
reducing

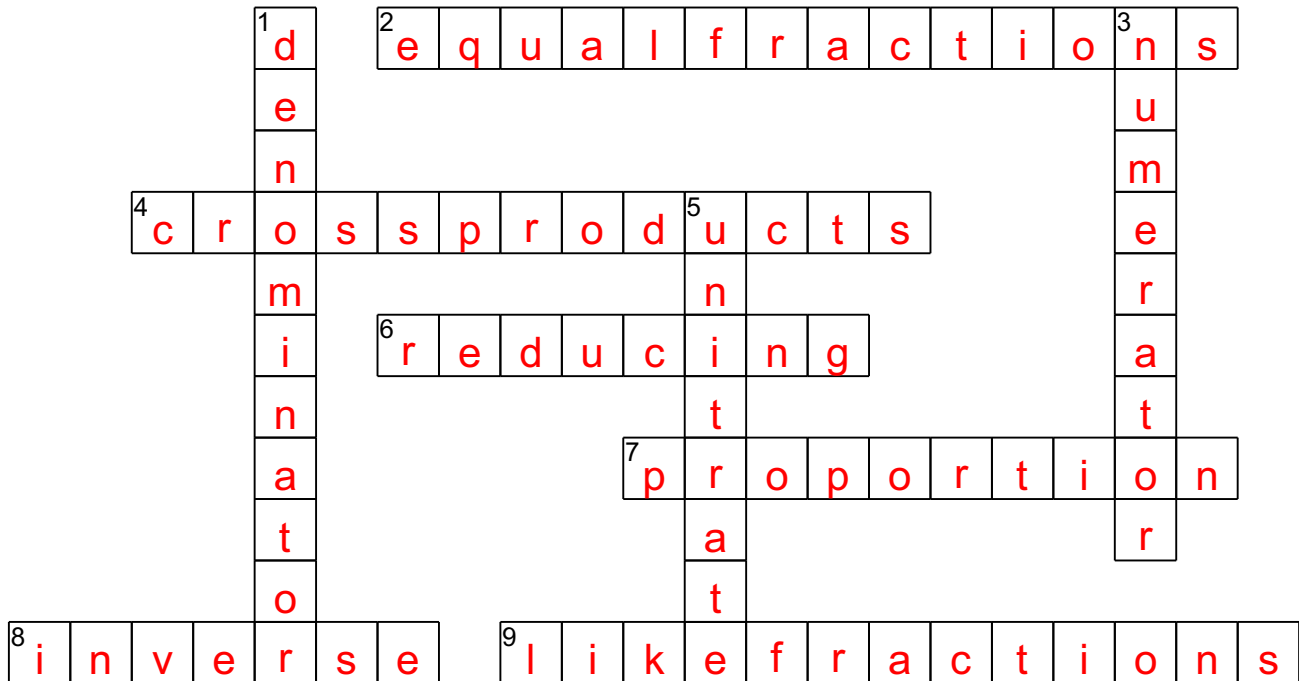

cross products
proportion
equal fractions

denominator
inverse
unit rate
